

HealthLife uses Cerner Health to provide a secure username and password to access your patient record information. Use this account to sign in whenever you see the Cerner Health Logo. You can also download the phone app.

HEALTH MANAGEMENT APPS

MCHHS is dedicated to helping improve your overall health care experience by providing convenient, streamlined resources to help you better manage your health. We now offer the ability for you to securely connect some of the health management apps you may use (i.e. fitness trackers, dietary trackers, etc.) to your health record.

This new process provides access to your health and wellness data that will enable you and your care team to make informed choices. If you are interested in this opportunity, let us know by calling 785-738-9499.

Once we receive your request, MCHHS will work with the appropriate vendors to determine if they meet the technical requirements in order to establish a secure connection.

At MCHHS, we're focused on enhancing your overall patient experience.

FAQ's

Where does my health information in the Portal come from?

All of the information in the Portal comes from the Mitchell County Hospital Health Systems Electronic Health Record. This ensures that you have access to the most accurate, up-to-date information possible.

Is my information safe?

Yes. Portal passwords are encrypted and URLs are re-written so that they can not be copied and pasted. You and authorized family members are the only ones who can access your Portal. Also, a timeout feature protects your information if you leave the Portal page open.

Can my family access my Portal?

Yes, you can give family members, such as parents or healthcare proxies, access to your Portal. This needs to be done at the MCHHS Registration Desk and requires a written consent from you and your family member(s). The only exception is parental access will not be granted for minor's ages 13-17, due to state law. Please see "Patient Portal for minor accounts, ages 13-17" flyer for more information.

PATIENT PORTAL

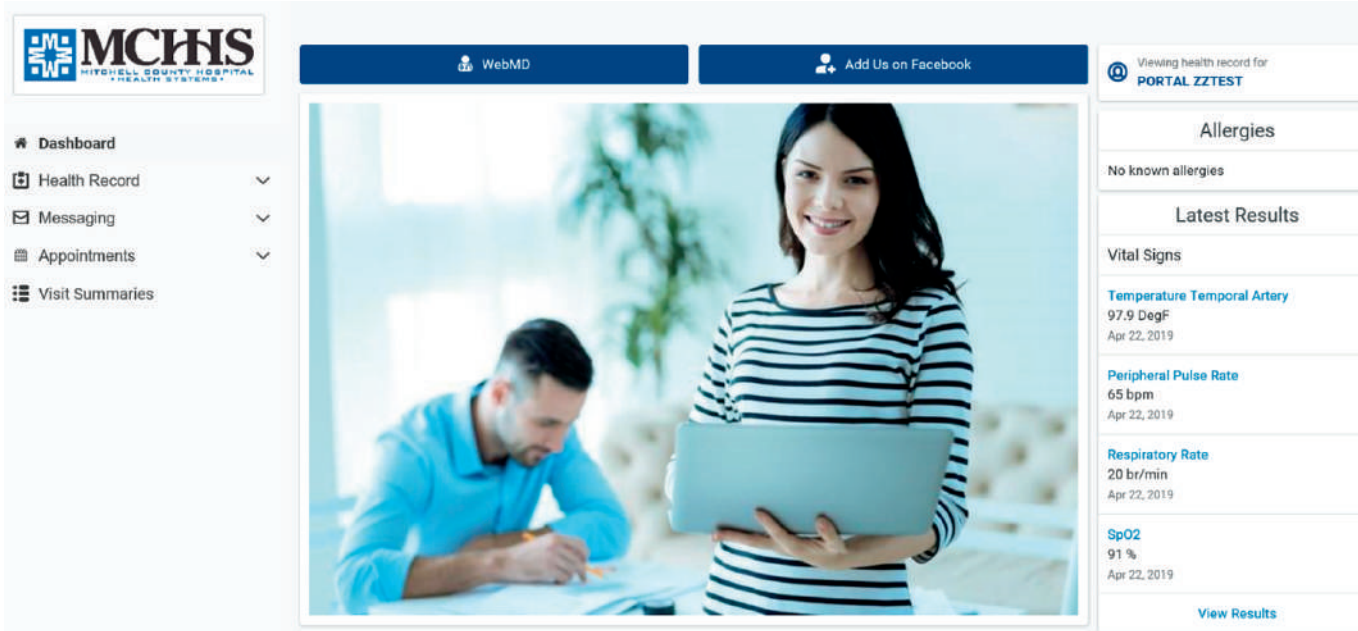

Secure, online access to your personal health information

Mitchell County Hospital Health Systems
